Customer Reviews

This is a decent book, some explanations are just a little too vague.

Information that is very useful in certain situations. It is written in a way the layman can understand.

Good information if you are just staring out, but really lacked solid detailed information. Most of what I found in here, I had already researched myself online. Though I am extremely thorough on my research so maybe that is why I didn't find much additional information in here that I could use that I didn't already know. Others may find this helpful however.

Excellent resource.

good to know the information
