The St. Martin's Guide To Writing

Synopsis

Whether you have years of experience as a teacher or are new to the classroom, you and your students can count on *The St. Martin's Guide to Writing* to provide the support you need in first-year composition, with a rhetoric, an array of engaging readings, a research manual, and a handbook, all in a single book • and available online. Thousands of instructors and their students rely on the *Guide's* proven approach because it works: the *Guide's* acclaimed step-by-step writing guides to 9 different genres offer sure-fire invention strategies to get students started, sentence strategies to get students writing, and thoughtful revision strategies to help students make their writing their own, no matter what their major. With its hands-on activities for reading like a writer and working with sources, there is no better text to help students bridge reading analytically to successful writing in first-year composition and beyond. In keeping with the *Guide's* tradition of innovation and based on instructor feedback about what assignments they give their students, the new edition integrates new types of writing that reflect the range of genres being assigned in first-year composition, including a reimagined Chapter 5 that provides a bridge from personal and expository to argumentative writing by following a scaffolded approach. The eleventh edition is available with LaunchPad for *The St. Martin's Guide to Writing*, an online course space of pre-built units featuring the full e-book, tutorials, and adaptive LearningCurve activities to help students hone their understanding of reading and writing. To order or purchase the print text with LaunchPad, use ISBN 9781457698484 for the Cloth-bound version, ISBN 9781319016036 for the Paper-bound version, or ISBN 9781319016067 for the Short Edition.

Bought this for my sisters college class and she loves it says it's exactly what she needed. It was way cheaper then buying at a school bookstore so definitely worth the money

I needed this book for my beginning composition class. Though this book is called the short ninth edition, it is exactly the same as the ninth edition, only it is a paperback.

I needed this book for a class, but was appalled at the price of it. I didn't expect to use it after this quarter so a rental seemed as though it would do just fine. To my surprise even the rental prices were high. There did come a light at the end of my tunnel, and this would be it. I don't have a kindle, so I used the Windows 10 app (which worked perfectly). The writing can seem a bit boring and tedious at times, but it is definitely helpful.

Received in time promised. Very happy.

Lots of nice Citation help!

Book was delivered without any damages to it.

thank you

I previously owned this book in 2009 while taking English Comp 1. Over the years it was either sold back or lost in multiple moves. Despite my English Comp 2 teacher requiring the newest edition, I was stretched on budget at this time and found the seven dollars for this book was far more economical than 70 or more for a new one. My teacher placed the page numbers for both editions in all assignments and they were nearly the same with maybe a three or four page difference. This is a no brainer to anybody requiring the new edition. Flip back or forward a few pages from what the new addition pages are supposed to be and your wallet will be very happy. (My used book came in excellent condition as well.)
