Book by HOLT MCDUGAL

I have bought several text books for my kids from you and have no complaints, you have always delivered what you have stated and have no complaints. I most definitely recommend MCDUGAL LITTEL.

Good book. Perfect description. Using it everyday for my Trigonometry/Algebra 2 class

I got the CD right away. it did not take much time. I like this easy planner. It has many resources I can use for my students. It is helpful. It has answer key it do not have to design the worksheets.

I am going to learn Algebra 2 myself and this book helps a lot. It is a second hand book but it looks new:)

I can't tell you about the book because I have not received it. I am awaiting a response from the seller epbookrack1 who reported having shipped it on June 3, 2010. I don't know if they really shipped it or not or if the USPS has lost it. Thus far, I have lost \$46.49, the price of the book

(Algebra 2 Texas Edition, 2007) plus shipping. And I have no way of tracking the shipment. I am not a happy customer. I just began using . If the book does not arrive soon, it may be my last time to use . That is why I gave a zero star rating. (Oh! Do see a rating of 1 star? That's because would not let me give epbookrack1 a zero rating.)

All ok I was told at school dodo not book after ordered and to send I would have to pay shipping again

I love this book, it just has soooooooooooooo much math(Algebra 2)This brand holt Mcdougal is an amazing textbook!everybody should get it
