Drew Campbell has been in the technical side of the entertainment business for more than twenty years, as a stage technician, designer, film lighting technician, videographer, editor, director, and teacher. He is the author of Technical Theater for Nontechnical People, now in its second edition; Technical Film and TV for Nontechnical People, which was honored with the Golden Light Book Award as Film Book of the Year by the Mine Photographic Institute, and Digital Technical Theater Simplified. He lives in Woodland Hills, California.

Great book to help my students learn theatre

This book is adequately informational. It is not well written. It really, really needed an editor. There are several factual errors and misstatements that an editor would have seen immediately. Perhaps for the next edition, the author could improve the text by having it read by an editor before

publication.

The content seems valid enough--the author is well-informed on his subject matter--but it is so badly written (use of slang, vernacular expressions, immature humor, etc.) that I found it unreadable.

A great layman's read on digital theatre production. Answers soooo many questions the average tech has. I will reference this often.

This is now part of the required reading for my students of theater and the drama club.

Amazing book. I am in no way a TechnoGeek and this book made a ton of sense. It taught me things I didn't even realize I should know. Get this book if you need a crash course in what is possible and why you should update equipment, especially if you are in an Educational Theater environment and feel like the students are increasingly more tech-savy. From the very basics, to Broadway applications this book covers a lot of ground in a fun to read way that is never 'over your head', nor 'treat you like a five year old'. I'd give it five stars if only the Kindle edition had the illustrations that I am sure make everything that much clearer. I may even buy this book in print, just to add to my students library.

Very useful info.

Item as described. Smooth transaction. Speedy delivery.
