Customer Reviews

I have read lots of diet books over the years and tried a few. This one works. I've been following it 95% for the last six weeks. I am not only losing weight, I am gaining energy and feeling lots better. What I particularly like is that this is not a diet fad. It's a life plan that you can adhere to because you don't get ravenously hungry as you do on artificial diets. This plan is designed for health, not mere weight loss.

seriously a great book

Some nice recipe ideas but a bit repetitive.

The recipes seem easy the layout is great. I plan to try a few while I'm off work.

Helpful....gave a good overnier on how to approach a different view on preparing meals.

I guess for the price the book was okay, but I was hoping for something a little better than a paperback.

The carb count seems a little high on these daily menus and there are no links to the recipes from the menus which would have been nice. My biggest complaint is the recipes themselves. One recipe calls for 3 pounds of mushrooms, 1 pound of leeks and a pound of chicken then says it serves four people! What a serving! On top of that, the instructions do not mention using the chicken in any way.

Very simple and attractive combinations..This book is packed with good tasty recipe's and complimentary side dishes to add below main recipe.Highly recommend!
