Lonely Planet Cairo

Synopsis

Cairo - a seething, vibrant metropolis where the ancient meets the modern and Africa collides with the Middle East. Whether you're looking for bustling bazaars, medieval mosques or echoes of the Pharhoahs, this lively guide, written by a locally based author, is your essential companion.

Customer Reviews

During our recent trip to Egypt, we found this guide to be extremely helpful. Its information on lodgings, restaurants, and sights is unmatched by other guides. We found it had slightly more information than Lonely Planet Egypt, but we could easily have gotten by with the latter. It *is* nice to have the smaller volume to carry around in Cairo, though. If you get only one guide, make it the Lonely Planet Egypt (unless your plans only include Cairo). If you are spending significant time in Cairo, it's probably worth springing for the smaller volume, too.

This guide is the most accurate and well-written travel book that I have ever purchased. I took it everywhere. It honestly told me what to expect - good and bad. I am certain that my positive travelling experience would have been different without it. Please buy this book over its rivals it is indispensable!

We had five travel books going into a one week trip to Cairo last month. After one day we realized the quality of this guide and tossed the others back in the bag. We stayed in the heart of Islamic

Cairo, so the detailed information on that part of the city was especially helpful. There are even several walking paths that the author maps out to help you make the most out of your sight seeing. Other guides might have a lot of colorful pictures, but the quality of information is not even comparable. Several pages started falling out of the guide by the end of our trip because of overuse!p.s. I think we had the 2nd edition.

Just returned from Egypt. Took the Lonely Planet Egypt and Cairo. Every word in this book is in the Egypt text, which is far more thorough and informative. Don't waste your money on this older book when the newest Egypt has all of this plus the rest of country updated.

This guide is excellent. I lived in Cairo for a year and this book gives you a lot of "inside" information for anyone who wants to thoroughly explore the city.
