I often had been deceived by the people when I am in new places. So I always prefer to read books and gather information before visiting any new places. This is great book which have all the details I wanted to know about Maldives. I want to stay in local areas rather than tourist area and there was enough information about the local places of Maldives in this book. The pictures in this book made it much easier to know more about these places. This book contains different details on many interesting and famous places of Maldives. Anyone can read this book who are planning to visit or want to know more about Maldives. Just waiting for my holidays to visit Maldives and to know their life style and cultures.

The Maldives is on my bucket list and this book just made me more excited to visit this extraordinary place. Mentioning the fact that it was a difficult and time consume journey to get there it all has change now, there are airlines that offer cheaper flights. The book also gives great links to follow to

plan your trip to the T to make the most of your time, I am an adventurer and will most certainly do one of the hiking trips!

It's an extremely uncommon thing to have container records as they give you an exceptionally essential involvement in some bizarre ways. My family has one and I for one have one as well. great book.

Nothing I hadn't seen elsewhere. Not worth it.
