A Textbook Of Modern Toxicology

Synopsis

A Textbook of Modern Toxicology is a unique resource that provides both students and practitioners with a wide-ranging, accessible overview of the discipline. Suitable for courses in environmental, pharmacological, medical, and veterinary toxicology, this essential text features chapters written by experts who address a range of key topics. The Fourth Edition includes additional chapters on new approaches to toxicology - molecular methods (-omics: toxicogenomics, proteomics, and metabolomics), bioinformatics, and systems biology and continues the legacy of its predecessors to provide up-to-date insights into acute toxicity and chemical carcinogenesis, organ toxicity, in vitro and in vivo toxicity testing, ecological risk assessment, and many other areas of toxicology that help foster a solid comprehension of the field. Also featured in the Fourth Edition are end-of-chapter questions and a Solutions Manual available separately for academic adopters.

Book Information

Hardcover: 672 pages

Publisher: Wiley; 4 edition (June 21, 2010)

Language: English

ISBN-10: 047046206X

ISBN-13: 978-0470462065

Product Dimensions: 7 x 1.6 x 10.1 inches

Shipping Weight: 2.8 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 2 customer reviews

Customer Reviews

"The book assumes a good knowledge of general toxicology and some knowledge of specialist areas, and would be a useful aid if studying for a higher degree where basic understanding has been." (British Toxicology Society, Winter 2010)

A State-of-the-Art Toxicology Textbook Ideal for Students and Professionals Critical Acclaim for the Third Edition "A good, easy-to-read and comprehensive reference work for all safety professionals involved in toxicology or those wishing to broaden their knowledge of the field." •Journal of

Chemical Health and Safety, March-April 2005 "A useful introductory text, and the new chapters are a valuable addition to the old edition." •Toxicology, No. 27, Winter 2005 "An excellent modern textbook that benefits from the current writings of experts in all the key topics of modern toxicology." •Veterinary and Human Toxicology, 46 (4) August 2004 Now in its Fourth Edition, this unique resource provides both students and practitioners with a wide-ranging, accessible overview of the discipline. Designed for general toxicology courses and also suitable for those in environmental, pharmacological, medical and veterinary toxicology, this essential text offers chapters written by experts who address a range of key topics. A Textbook of Modern Toxicology, Fourth Edition continues from prior editions with coverage of basic concepts in toxicology and expands its scope by adding chapters on molecular methods, bioinformatics and systems biology. Up-to-date insights into acute toxicity and chemical carcinogenesis, organ toxicity, in vitro and in vivo toxicity testing, ecological risk assessment and many other areas of toxicology help distinguish this book as a leader in the field. Featuring end-of-chapter questions and an online solutions manual for college instructors adopting the text for their classes, A Textbook of Modern Toxicology devises learning strategies that build on the fundamentals to aid readers in tackling the current and future trends associated with this developing area of study.

This textbook is required in the university course I am now taking. The subject matter is well laid out, and can be read fairly easily.

Used in my university class
