4th Edition 2012 This printing represents a dramatic improvement to our artwork for Madagascar. The cover is the same, because we like the cute picture, but the map is now double-sided (north half/south half) at a much better scale than would be possible with a single-sided map. The island of Madagascar is one of those parts of the world I've never visited, to my regret. It is, however, a very popular map for us, with the previous edition selling in less than two years. The country underwent a military coup a couple of years ago, which placed the country under sanctions from the OAU, the EU, and I suppose the UN, which probably affects them economically; otherwise, life carries on much as usual. As far as I know, the country remains peaceful and safe for travelers. Map size: 27"x39"

It was exactly the map I need for my next trip in Madagascar! Thanks a lot! The quality and precision of the map is good !!!

great!
