Louis Cayer is known within the tennis community as one of the best doubles coaches in the world.

He is the head national coach of Tennis Canada, the former Canadian Davis Cup captain, a member of the International Tennis Federation (ITF) coaching committee, and was the Canadian Olympic coach for the 2000 gold medal-winning men's doubles team. Cayer has presented his workshop on tennis doubles at ITF conferences on five continents in front of tennis federation leaders from more than 100 countries. He is responsible for the Tennis Canada Coaching Certification System, and he has worked with some of the world's highest-ranked men's doubles players, including the 1993 number one player, Grant Connell, and 2000 Olympic gold medallists SÃ©bastien Lareau and Daniel Nestor. In 1996, players coached by Cayer were on three of the world's top five teams. Cayer and his wife, Pauline LafreniÃªre, live in QuÃ©bec, where Cayer, in addition to serving as head national coach, serves as general manager of the Nuns' Island Tennis Club. In his leisure time he enjoys walking in nature, reading on personal growth and spiritual literature, and spending time with his wife.

This video covers the "California doubles" formation mentioned described thoroughly in *The Art of Doubles: Winning Tennis Strategies and Drills* and even demonstrates using a string to visualize how the net person can cover much of the court and identifying what part of the court should be the responsibility of the net person's partner. It's a pretty short video, however, and I'd only recommend it as a companion to the book.

I learn something everytime I watch this DVD. Very helpful tool.

I've watched this over and over and have found it helpful in getting my doubles tactics to the next level. Its fun to watch and I highly recommend it.

This DVD goes a little beyond the basics and teaches good ideas for placement on return of serve and net play. Would recommend for the intermediate tennis player.

This DVD does a reasonable job at helping one think about tactics with pretty good illustrations. It won't get you to Davis Cup but more than worth the price, considering what lessons cost.

Lots of interesting tactics to think about. But let's face it, you can't learn tennis from a book.
