The Complete Earth Chronicles (The Earth Chronicles)

Synopsis

Hardcover collector's editions of all 7 volumes of the Earth Chronicles Series in a display slipcase. Includes The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days. The culmination of Sitchin's 30 years of intensive research offering indisputable documentary proof of humanity's extraterrestrial forefathers. The Earth Chronicles series, with millions of copies sold worldwide, represents the culmination of Zecharia Sitchin's 30 years of intensive research into the history and prehistory of Earth and humankind as recorded by the ancient civilizations of the Near East. Within these volumes, Sitchin--one of the few scholars able to read and interpret ancient Sumerian and Akkadian clay tablets--presents indisputable millennia-old proof of humanity's extraterrestrial forefathers, the Anunnaki, who visited Earth every 3,600 years from their home planet Nibiru. This boxed set of hardcover collector's editions with enhanced maps and diagrams includes all 7 volumes of the Earth Chronicles series: The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days.

Customer Reviews

"Sitchin is a zealous investigator into man's origins . . . a dazzling performance." (Kirkus Reviews) ". . . the most important books on Earth's

roots ever written. (East West Journal) "Anyone whose Sitchin paperbacks are suffering the ravages of the years will appreciate this new collector's edition, as will those who've only read Sitchin's most recent works. (Ruth Parnell, Nexus Magazine, October 2014) "In Mr. Sitchin's [work], evolution and creationism collide. (New York Times) "For thousands of years priests, poets, and scientists have tried to explain how man was created. Now a recognized scholar has come forth with a theory that is most astonishing of all. (United Press International) "Exciting . . . credible . . . most provocative and compelling. (Library Journal)

One of the few scholars able to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) based his Earth Chronicles Series on texts from the ancient civilizations of the Near East. Drawing both widespread interest and criticism, his controversial theories on the Anunnaki origins of humanity have been translated into more than 20 languages and featured on radio and television programs around the world.

These are not books you read in one night, but are so interesting you can hardly put them down. Fascinating! Came in great package to keep all the books together. Very satisfied and have ordered other books of Sitchin. Thanks

Love reading about mans true origins, the books are high quality. They are however stuck in the box pretty good, really have to jam them back in there and hard to get them out. Maybe they need to be broken in or something?

This book set arrived neatly packaged into a dust box to make sure that the pages arrived clean and crisp. The print is easy for me to read and I have gifted it to my father in law since I have liked it so much. This is such a great resource for anyone wanting to find out more about the theory of humans from the author Sitchin.

fascinating information!

Fantastic work, very well written and will give many people a new perspective on most things that are considered myth, and some that are considered fact.

I wish this was more mainstream

Having done enough of my own independant research, through congruent ideologies, the information here is succinctly presented. While encompassing various threads of ancient history, and vast reference to research. These books should be interpreted by those who seek them, and their Ideology is shared by everyone.

I am pleasantly surprised at the hardcover quality of the books! Arrived in perfect condition and well packaged! This price was an awesome deal.
