Customer Reviews

After watching the PBS program, I became interested in the great trails described. This book has it all, the route, the history, etc. Just came home from traveling the mission trail in CA. I recommend this book to people who like road trips, and American history. I do, so this was an excellent purchase for me.

Fantastic overview of our historic trails. Provides some little known facts and introduces the viewer to everyday men and women who made substantial contributions to US History
