Customer Reviews

I use these books to warm up community band that I conduct nearly every rehearsal. The exercises prepare each musician comprehensively... and they are structured in such a way that no section is

left bored while others focus on specific skills. The chorales in this book are BEAUTIFUL, and I really enjoy that the warm-ups go beyond the standard flat "band keys". All-together an indispensable book.

Ordered the clarinet book and got a bassoon book. My daughter and her band teacher are frustrated. Disappointing.

My daughter needed this for 6th grand band this year. I looked through it when it got here and it seemed like a great book (I played the clarinet too) for those learning how to play. I don't know where the band is, but she is almost done with this one herself. She always plays ahead of where they are supposed to be. I'm sure I will need the next book soon.

good

I really can't rate the content of this book because I played piano and am not the person using it. The copy we ordered arrived in good order, in a timely manner, and is exactly what my son's band instructor wanted him to have. It seems to be a classic for instruction, and it wouldn't be so popular if it weren't effective.

Excellent product at a great price.

Great warm ups for your band program. Can easily be used in combination with other method books or repertoire.

A good book for kids.
