## Customer Reviews

Honestly, a lot of the information in this book I already knew, but it is a great guide and has some really good ideas that I hadn't thought of.

Wenona Napolitano did a very good job with this book. It is well researched and full of helpful lists including: edible flowers to use in your decor, pictures you want your photographer to take, and

simple recipes and instructions for DIY favors. She also does a great job of providing the "why" of green weddings. The book begins with ten reasons to have a green wedding and includes E Facts, E Alerts, and E Essential environmental tips throughout. A great addition to your green wedding bookshelf.
