I have this as an alternative learning resource for Spanish, and I recommend that you use it as such, not as a primary resource. It is a quality product and I like the information it presents, but the format is not quite conducive to learning like other books/CDs are. Don't get me wrong, I think it's worth adding to your collection if it is not your sole source for Spanish, but as it stands it is not complete. And don't expect to really communicate well in 30 days, unless you are a language savant.

I purchased this product used because I had damaged my original copy of the cd. The product was in excellent condition. If you set a schedule to listen and complete the exercises, you will be amazed at your progress. it is possible to become "conversational" within a month. Give it a try!

Scratches and skipping made it impossible to use the material. The book was helpful but not very beneficial with pronunciation.

Happy with it!

This book is excellent, it creates a wonderful balance between oral conversation and written and grammatical skills. Excellent for beginners.

I can see no way for a beginner to pick up this book and even understand what's going on. I have taken several years of Spanish, and I struggled through the entire second half of the book. This is an OK book if you are wanting to brush up on your Spanish verb tenses, but would be no help to someone who knows nothing yet about the Spanish language. I was also dissapointed about how the storyline was created. It was a bit inconsistent and also choppy.

I bought this book new at roughly half price at a bookstore. They speak clearly on the CD, the print is good. I don't think that book is for beginner: after few first lessons, the speech become faster and faster. The only drawback is the BINDING: I can't open it easily.

This product is inferior. The CD is scratch up but loadable. There is no English on the CD at all. I would like to return it for refund.
