Thomas' 123 Book (Thomas & Friends) (Pictureback(R))

Synopsis

Count along with Thomas the Tank Engine as he chugs around the Island of Sodor. This companion to the perennial classic Thomas' ABC Book teaches numbers to train-obsessed little boys and girls ages 3-7 as only Thomas & Friends can.

I bought this for my grandsons and my daughter in law said they love them. Thomas the Train is my 3 yr. old grandson's favorite. He is very bright, so the 123 book will reinforce what she is already teaching them.

My toddler is a big Thomas & Friends fan. With this book, I am able to keep his attention and he seems to be interested in learning numbers with Thomas. He now knows to count from 1 to 20 thanks to this wonderful book! We also purchased Thomas ABC book, which also helps him learn his alphabet!

I love how this book is not only a thomas book but also teaches my son his number! Teaching him his numbers with his favorite character is amazing because he seems so much more interested in

learning his numbers now! Not only that, this book is a great addition to the rest of his thomas the train collection that we have going on! I love reading this to him not only during the day, but this also makes for a great night time read at bed!!!

The storyline is awesome. I knew it wouldn't be hardcover, and that's the only downfall. Our grandson LOVES it!!

My little one loves this simple book to help teach. Very engaging. Good buy!

If your baby loves trains they will love this book! Excellent purchase!

It's pretty good. Love how it counts all the way to 20, since my 2.5 year old has already mastered counting to 10. I wish the pictures of the items to be counted were much bigger though. The picture of the train is big and takes up 2/3 of the page, but then you are trying to count these teeny tiny seagulls in the corner. But I like it much better than another counting book we have that is too huge with flaps you have to lift up and very cumbersome. This book is a more comfortable size for me to hold while my son is on my lap.

My 2 year old loves this book and is learning!!!
