Customer Reviews

The earworm discs are awesome learning tools. I speak Japanese on a conversational level but bought both volumes as a refresher to retrain my ears after a few years of not speaking the language. While both volumes are below my language level, there is something really excellent about the presentation that I find helpful. I'll often leave it on in my car in the background and continue to do so. The man's pronunciation (and even his English habits-- he keeps saying "aiya" in the second volume, which isn't even British slang as far as I can tell) are kind of irritating, but not enough to demerit anything. I wish they made higher language levels, but I have purchased a few copies of this for lower-level learners as well.

THANK U : Great service will see u soon u rate an A+
