WOODWORKING PROJECTS: GREAT AND EASY GUIDE FOR BEGINNER

Synopsis

Woodworking can be regarded as an activity or either a skill of making items by using wood and it also includes wood carving. Many people do little woodwork, but it may be surprising for you if you get to know that there are diverse skills which are falling under the woodworking umbrella. There is an amazing variety of woodworking disciplines beyond the basic home repair and carpentry. Many items can be made by using wood. This book will be useful for anyone starting or re-entering into the woodworking hobby. There are lots of reasons to begin woodworking for the people who are thinking to get into it.

Customer Reviews

I am rubbish at anything DIY so this book is great for me because it has so many pictures that even someone with my skills can follow it. The ipod stand caught my eyes so I will try that first, very good

read in an easy to follow format. Four stars

This book just made me want to build my own picnic table! The author does a great job of explaining step by step process to all kind of projects from making a simple pipe to a portable closet. This is a great read and Do it Yourself guide.

Woodworking may come easy to some people, but, not to everyone! Thus book helps that kind of person succeed on their first try. Thanks for the great advice, comments, photos, and illustrations!

There really isn't too much to this book, and what there is isn't worth the money! It's vague and, with the one project I was about to start, incomplete!

Great reference book

Woodworking Projects is not a very well written book. The instructions are usually vague and or incomplete. Most of the instructions are confusing and it seems the author did not have a command of the English language. The instructions have mixed measurements of metric and imperial. The author should have picked one! Some of the ideas are interesting but not worth the trouble of figuring out the instructions. I gave 2 stars because the pictures give the book a little value. I'm probably going to delete this book.

All the books i get arr good

Excellent
