LEED AP BD+C V4 Exam Practice Tests

Synopsis

TEST AND REINFORCE YOUR KNOWLEDGE WHILE IDENTIFYING WEAK SPOTS! The LEED AP BD+C V4 Exam Practice Tests is designed to provide the reader with a real exam simulation presented through 3 full-length practice exams designed to assess and reinforce knowledge while simultaneously identifying weak spots. The exams have been prepared in the same scope and format as the actual LEED AP BD+C V4 exam, and the questions are based on the most important concepts to capture all the critical information encountered during the actual exam. The answers and discussions about the answer choices are carefully written to ensure that the test taker avoids repeating the same mistakes while learning much more than just the correct answer. The book provides complete coverage of all the test topics and assesses whether the test taker's knowledge is up to the challenge. Regardless of how well the test taker knows the content, being exposed to the actual exam format should make a significant positive impact on the actual exam score. With the completion of the practice tests, the test taker will know the most important information needed for the exam. This book is strongly recommended for all who want to reinforce their knowledge, identify their weak spots, and become familiar with the LEED AP BD+C V4 exam scope and format. Increase your test score and ensure a first-time success on the exam. Test and reinforce your knowledge while identifying weak spots. Learn the most important information that you need for the exam. Familiarize yourself with the actual exam scope and format. Fill in the missing knowledge.

Customer Reviews

A. Togay Koralturk is an expert on green buildings and sustainability, and is the author of the LEED Complete Study Guide series, which is widely adopted as the primary course material for bachelorâ€s and masterâ€s degree classes in architecture and civil engineering in universities throughout the United States. Holding a bachelorâ€s degree in civil engineering and a masterâ€s degree in construction management from the University of Southern California, he began his career in Los Angeles, California, in project management, earning his LEED AP credential along the way in 2008. He has played a major role in directing numerous projects pursuing LEED certification worldwide and in educating professionals about green buildings and sustainability. His works on green buildings and LEED have sold thousands of copies worldwide, and their sales continue to grow.

very good set of questions and detailed answers.

Excellent resource to prepare for the exam. The book contains three well prepared practice tests. The answers are thoroughly written. Highly recommend this book to test your knowledge before the actual exam.

Excellent practice tests! This book is a must before taking the LEED AP BD+C exam. You can see where you are before taking the actual exam.
