Rainbow Reiki: Expanding The Reiki System With Powerful Spiritual Abilities (Shangri-La Series)

Synopsis

Rainbow Reiki is a proven system of complex energy work. The basis of Rainbow Reiki, a successful combination of old and new methods, is the Usui System of Reiki. Rainbow Reiki expands the Usui Reiki system through highly developed techniques of energy work and provides possibilities of working directly with subtle beings as teachers. Therefore, this book offers a wealth of possibilities to achieve completely new and different things with Reiki than taught in the traditional system.

Book Information

Series: Shangri-La

Paperback: 175 pages

Publisher: Lotus Press; 1st English ed edition (June 16, 1998)

Customer Reviews

Text: English (translation) Original Language: German

Rainbow Reiki energy has a "different" feel to it from the Usui Reiki energy. Even if you have not been attuned to Rainbow Reiki, this book is a wonderful resource. It has many exercises and tools that are valuable regardless of what "type" Reiki you practice. This is actually my second copy of this book. I loaned my first copy to a friend and it has disappeared. I value the book enough to have purchased it a second time.

I feel like this is one of those books I will be reading on and off for a long time, there is so much valuable information in this book on Reiki and it's many supportive "modalities" (for lack of a better

word). I believe Walter Luebeck has done a great job of transcribing this information from his practice and channeling, and most importantly the information itself is profound and just in the middle of Airy-Fairy and Nitty-Gritty....A well rounded piece of work for those looking to expand their Reiki-Practice. Though I would advise getting the the Chakra-Card set to go with it, since that is a bit more playful and helps get through the dense bits of this books.

I particularly liked it as it opens one to practical exercises and different ways to working with Reiki. I like the use of crystals and the charts to be used with the Pendulum.

Gave as a gift and the person enjoyed it very much. Was like new.

This book finally brings together a real way to use many tools of healing while giving a Reiki treatment. I highly recommend it to my Reiki students who are on a healing path. It is easy to read. It lets us realize how simple and easy it is to be a healer when our own ego is not involved.

Rainbow Reiki by Walter Luebeck sets forth with the intent, according to the subtitle, of "expanding the reiki system with powerful spiritual abilities." This amazingly short, at 175 pages, text extensively explores the vast expanse of rainbow reiki technique and application. This thorough examination of the topic will prove beneficial to the reader with only minimal difficulty. Walter Luebeck, a Reiki Master and author of several books, including *The Complete Reiki Handbook*, *Reiki--Way of the Heart*, and others, is the founder and director of the Reiki-Do Institute. He has developed rainbow reiki as a means of incorporating additional alternative healing modalities, such as channelling, astral travel, reiki essences, and others, into synergistic combination with reiki healing. As a synergism of the parts, this expanded reiki method promises to supply the practitioner with a wide range of potent techniques. Most Reiki practitioners will probably feel quite comfortable within the world of Rainbow Reiki. Luebeck is quite thorough in detailing both the history of Usui reiki and the development of rainbow reiki. The prerequisites for performing the techniques he offers are explained in great detail. As the reader moves forward through the text, she will find chapter after chapter rich with techniques, ranging from aura and crystal techniques to uses of mandalas and power vortices...and much, much more. Perhaps few will be able or inclined to use or master all that is offered in this book; but everyone is sure to come away from reading it with at least a few new practices to add to their repertoire. The difficulties with Rainbow Reiki are minimal. Stylistically, Rainbow Reiki is written in a somewhat dry, academic tone that some readers may find difficult to endure. Nonetheless,

perseverance will reap rewards for the diligent reader. The only other point of issue is that Reiki I practitioners may feel left out since most of the practices of the book are specifically directed for use by more advanced reiki practitioners. This need not be the case, however, if the Reiki I reader uses this book to spur them on to advancement to higher levels and as a means of familiarizing themselves with some of the practices that await them as they advance. In conclusion, Rainbow Reiki, though moderately difficult to read, is well worth the effort for the sheer wealth of techniques so extensively explained in its pages. Few, if any, other books are available to explore the world of reiki and specifically rainbow reiki in such breadth and depth

This book by Lubeck is great. Those of us that know little about Shamanism are sure to be thrilled with the innovative techniques that Lubeck offers. Since the beginning of the book Lubeck gives out warnings in the matter of practicing the techniques and outlines every single one of them step by step so that any body with the minimal qualifications may practice them, outlining this kind of techniques is a big responsibility and Lubeck stays at the height of the situation. It may be a little hard for those not used to reading academic books but is still a blast for your Reiki practice. All those that have read and use some of those techniques will agree with me that this book is a must have for any Reiki Master.

Rainbow Reiki by Walter Lubeck is a sharing of ideas that I as a Reiki Master Teacher has been looking to find for some time. It gives definition to the ways Reiki can be a major tool for healers trained in Reiki as well as other healing methods. It is a book I will highly recommend to those students I teach who desire and have the ability and responsibility to receive training beyond Reiki. This book also keeps the respect towards Reiki teachings we committed to as Master Teachers, in a factual, loving and sometimes humorous way, without the stuffiness many Reiki Master Teachers have assumed. I highly recommend this book to all interested in healing.
