New Yorker's New York City Map: Manhattan, Brooklyn, Bronx, Queens, Staten Island

Synopsis

Our newest laminated map says it all in the title: the New York City: Manhattan, Brooklyn, Bronx, Queens, Staten Island Map. And it even has a subway map! This map is completely waterproof with lamination on both sides, and unlike our Five Borough Map it folds down to convenient dimensions of just 3.5 by 7 inches. To keep the size small, parts of southern Staten Island and eastern Queens are cropped, but with over 250 square miles of coverage, it is an awful lot of map in a pocket-sized package.

Customer Reviews

Opus Publishing, LLC was founded in 2003 by a group of New York City residents, including a city planner and a former bike messenger, who were dissatisfied with the quality of New York City maps currently on the market. Maps from Opus Publishing are designed to be absolutely accurate and up-to-date, filled with information that is useful for residents and visitors alike.

I used this map last month, and found it to be perfect for visiting Manhattan. The New Yorker's Manhattan map is almost as good (I tried both), but I like this one better because it is easier to read. My daughter, with her younger eyes, likes the Manhattan version, but I could find streets more easily in the tangle below the grid (14th St) with the bigger print of this New York City version. This one also has the easiest-to-read subway map I have seen. You would not go wrong with either map. Both are laminated, fold easily, and take up the same amount of space. The Manhattan version folds a little more easily, but again, the bigger print and the larger street resolution of this version makes it my choice.

A good basic map of tourist NYC, the folded size is very good for tucking into a purse, bag, or pocket. Good coverage of subway routes, fair coverage of stops locations. The back side of the map (when folded) shows major bus routes, but the size of that map is really small and quite difficult to read without a magnifying glass. The airport maps show good diagrams of the layouts of LGA, JFK, and EWR (with roadways) but don't show which airlines serve which terminals. One caveat for first-timer visitors is that the 7 Line subway is now extended further west to Hudson Yards (near Javits Center) and this map doesn't reflect that new construction. This map competes with the "Streetwise" laminated maps, I use both for my annual trips to NYC.

This is a standard style & size folded map. The paper is thin and laminated, which is nice. Otherwise, I have found the map to be very standard and nothing exceptional. It struck me as odd that the bus route was on the outside, back-side when folded, rather than the subway map. Also, many of the details are too small to be especially useful, such as the street names in Lower Manhattan.

This is more like a "Manhattan map" not a "New York City map". This map is missing much/most of New York City. What it has:- All of Manhattan- Half of Brooklyn- A tiny bit of Queens What it is missing:- Half of Brooklyn- Most of Queens- All of Bronx- All of Staten Island

Lovely helper.

This map is really cool. It is laminated and folds up to a folded map size making it easy to travel with. I love that it's laminated so it will travel with us and not fall apart. Also if I wanted to use wet erase markers to make notes I could.

This may be great for a 20 yr old but I'm 60 and can't read it at all. Way to small!

This map was handy in helping us avoid getting lost in Long Island NY, Queens NY, etc. I especially like how it's laminated, and big enough to read.
