Customer Reviews

The illustration quality, firstly, is impeccable! Having said that, the beginning of that is exactly that: just beginning. While it was good for a first issue, there could have been more intrigue or new characters to add some variety. While it isn't a strong enough story in the first issue to warrant 5 stars, it is certainly worth reading for any Star Wars fans out there.

I got this on Kindle and it was better than I thought, being I used to collect these dam things but they seem much shorter now.

Not bad for a start, but I was hoping for more. We'll see how the next issue fairs. Maybe if the art

was better...

I won't spoil it but reading why the Sith blade is red was awesome. I am looking forward to the next book in this series.

Too short not in a good way but like in a rip you off kind of way. Love Star Wars, the premise and the comic but it should have been longer.

Art is good, and looks like story will be well done.

I have the first four issues of this series and to me they seem oddly brief and unfulfilling for the price. Especially when compared to the previous Marvel Darth Vader series.

Was great read and excited for the next one!! Can't wait for the next issue to come out in the next few weeks.
