Joyce and her husband, Dave, are the parents of four grown children and make their home in St. Louis, Missouri.

Joyce Meyer books have all made us stop and think what am I doing, how can I change my situation. This lady took the time to do a book for children on the battlefield of the mind. Wow, this book has so many mind thoughts that kids experience. How many times have you asked why are you doing that, what made you think you could get a way with that. What are our kids thinking? So many times they are not aware of why they did what they did until confronted. If we have these same problems how much more do our kids. Between school and home a child has a lot to contend

with. Sometimes we don't know why our child is misbehaving. What is he thinking, why is he acting out, what can we do to help him. This book is full of situations to help you and your child learn" to think about what he is thinking about " per JM and it has Scriptures to back it up key figure drawing and questions as you go through the book. I highly recommend this book to all parents and those who are taking care a child, its even good for you to use with your teens.

To be fair, I have only read the first chapter. I read it to my seven year old daughter and thirteen year old son. After I read it to them my son said, "That really gives me something to think about Mom, thank you!" My thirteen year old asked me to leave it on the dining room table so he can read it on his own throughout the day. I thought that was pretty awesome.

My grandsons really enjoy this book. Helps them with things in their lives. Gives bible verses that they can look up in their bibles also. Highly recommend this book to young children

This book is one of the best gifts you can give a child! Entertaining AND vitally important, you will want five more copies to pass around. Great for kids up to 13, then give them the Battlefield book for teens. You will notice a positive improvement almost immediately.

This book is such a blessing for me and my daughters. It does a great job with showing real life situations and the true battle we are facing with the enemy.

We are reading this together as a family. Kids like it, and it brings up a lot of good conversation for our family. I usually read a section while we are sitting at the dinner table. Glad I purchased.

This is perfect for my grandson! Thank-you Joyce Meyers for being you!

Just bought this book to read with my 7 and 8 year old. We're all learning from it. God is a good God and breaking this down into terms we all 3 can apply to our lives. It's so good to teach them early how quick the devil tries to control our thoughts. May we be changed forever from this amazing down to earth teaching
