The book came in very fast. I could not believe how perfect it looked, it looked like a brand new book! I'm very happy with this purchase!

This book was required for class, so I didn't really have a choice on whether or not I should buy it. However, the book served its purpose. The book is well organized and clearly explains numerous accounting principles and concepts. Also, shipping was much faster than I expected

Saved me a ton of money and in good condition just as promised. Exceeded my expectations! I would recommend this completely.
