Customer Reviews

I give this book 5 stars! It met the requirements that I needed. I wanted a book for elementary age that would be on their reading level, and one that would give enough information without total overload. This book covers many topics - geography, government, economy, and much more. The kids learned a great deal about the UAE from this slim volume. I also wanted a book that would provide wonderful visuals for the children to see what they would view if visiting the UAE. The photographs in this book are excellent and wide ranging. It really gave us a solid understanding of this particular place that is so very different from the USA.

The United Arab Emirates is like a mini (USA) in the Middle East with a lot of people with Arabs from different backgrounds (Emiratis, Saudis, Omanis, and Egyptians) that number between (48-50%) and South Asians (35%) and Others (15-17%).
