The Beatles Guitar

Synopsis

(Guitar Book). This unique publication contains 52 favorite Beatles songs arranged exclusively for the guitar. It is designed to provide an accurate look into the lead and rhythm guitar styles of George Harrison and John Lennon. Instead of providing transcriptions of the guitars off the record, these arrangements use the musical elements of the bass, drums, keyboards and guitars all incorporated into one guitar so that they can be played alone or in a band. Written in tablature, this book also provides numbers, strums, accents and picking patterns for those who do not read music.

Customer Reviews

I bought this as a gift for my son - he is very pleased. He has played guitar for years and was glad to receive such a comprehensive book of music.

Great Book.

This has more than fifty of the Beatles best songs in a hybrid chord/tab/strum pattern format. This is really cool for people wishing to learn a few dozen Beatles tunes. After reading some other reviews of this product I was skeptical of buying this book but am glad I did and would recommend to other Beatles fans and fellow guitar players.

A really fun book. Easy to play instantly for an average player, easy base, clear chord melody and

not too busy. Good with a beer or two :).

Pretty solid collection of songs, defiantly wouldn't recommenced if you are a beginner or don't know how to read music well.

Looking for a gift for my future son-in-law and found this. I believe this will be the perfect gift for him. Great quality and fast shipping. Can't wait to give it to him.

Great Book for my husband-Beatles Fan

Its ok for me - but I'm just learning - I like "The Beatles Complete easy guitar" better for learning.
