Book by Hawkins, Sam

It's a great book. I have done several charts out of this and love the results.

Great

This book was such a good buy!!! Has everything the title promises....the only thing it doesn't have that I wish it did is an index or table of contents....but it is sorted out in an organized manner. As for the seller, the book came in excellent condition!!! It even had the paper sleeve which didn't have a tear or a wrinkle in it!!! It came b4 the estimated shipping date and I was completely satisfied when it arrived!!! It has so many designs for such an amazingly cheap price!! I'm completely happy with the book AND the seller!! :-)

This book is really full of so many different animals and fruits and vegetables and more! My favorite is the chapter called "50 House Designs" that has all sorts of adorable houses that you could make into small pieces or into a larger piece with different homes that you like. This is my favorite part of

the book. The "House Plant Designs" chapter is beautiful as well. I love this book. It is different than anything I have in my collection.

I personally didn't care for the pattern graphics in black and white but there is a picture in the beginning of each chapter. So I guess that helps.

This is a must have for all cross stitcher's It has a little of everything in it. 501 Cross Stitch Designs So many patterns and they are so easy to do and fit so many occasions. Wish I had this book a couple of months ago! I searched for months looking for a simple pattern to do on a handkerchief for a gift for the bride to be but never found one I liked. This book had plenty of cute wedding/bride patterns. Missed out on the last wedding but now I'll be ready for the next wedding. I loved the book and now have plans to make my own Christmas cards with the simple but cute patterns in this book. A must have book I'm sure you will love it too!

I ordered this hardcover book as used and it arrived in very good condition. The designs inside are varied so I can use some for adults as well as children. Definitely a good value for the cross stitcher who is always on the lookout for new designs or ones to redesign.

My original book was lost in moving and I have been looking for a copy for years. This was a GREAT find. Have been using it since I got it. Book is in perfect condition
