Customer Reviews

Very useful before, during and after our trip to the Scandinavian Peninsula

Michelin maps always have good details, even of features in a country's remote areas. I recommend that anyone considering a driving trip in Scandinavia purchasing this map.

Great detail, but not so easy to use in the car because it is so large. Use it to plan your route in conjunction with a tourist travel book.

Plotted our trip.

Excellent map with lots of other useful information on speed limits, seasonal daylight hours etc.

Nice road map to provide general orientation for driving. could use at least some topo shading, and emphasis on national parks and such prime destinations. And, more durable paper!
