## Customer Reviews

My daughter loves this book and the different parts of the book to play with. I wish there was more play pieces per page, but it is what it is. One page my daughter took the flying bird off and I cant get it back on, its not ripped or anything but I am going to have to pull out some tweezers to get it back in place

The book was not well protected during shipping and had a huge scratch across the front. My daughter loves the textures inside the book though.

I love it but baby hasn't expressed interest in it, and he loves books. I don't know what he doesn't like about it though.

My little one loved this book for his birthday! It is one of those books that my little now grabs daily. Would definitely buy this again for others birthdays!

Cute book. My daughter liked the interacting pages where she could pull strings and lift flaps

Really really cute book!!! I plan to read it with my daughter every birthday until she thinks she's too old for it ;)

super cute! I bought for my grandkids first bday

A classic and a great gift for a one year old
