50 Hikes In The Adirondacks: Short Walks, Day Trips, And Backpacks Throughout The Park, Fourth Edition

Synopsis

This classic guide to hiking in the Adirondacks has been extensively revised and updated and now includes 5 new hikes. Barbara McMartin has been hiking in the Adirondacks for decades; her family, for generations. She has distilled her vast experience into the 50 hikes offered here, representing a cross-section of the wilderness and wild forest: rugged peak climbs, gentle trips to distant waterfalls, bushwhacks to wild rivers. In all she describes 360 miles of trails to caves, uninhabited lakes, wetlands, cliffs, and fire towers across the Park's 6 million acres. The hikes range in length from 1.5 to 13.5 miles. Each hike description includes a topographic map, mile-by-mile directions, and information on distance, difficulty, terrain, and hiking time. An overview chart makes it easy to pick a hike for every ability. Throughout, McMartin provides commentary on the natural history of the region, along with colorful incidents from Adirondack history. 50 black and white photographs, 51 maps

Find the tips and trail explanations not so easy to follow because I am not that familiar with the Adirondacks.

Disappointed in this book. Very hard to follow descriptions

good info

This publication was very helpful as we start our new hobby of hiking in the Adirondacks.

Good book with some very good hikes

Having just moved here, I needed a book that would take me to out-of-the-way, non-touristy hikes. This one does it. The only drawback is that the directions to the trailheads are not as detailed as I would like.

THIS BOOK IS RIGHT ON....ACCURATE INFORMATION ON LENGTH OF HIKE, AND POINTS OF INTEREST.WOULD HIGHLY RECOMMEND THIS BOOK..

Easy to find the climb you want. organized by area and difficulty with detailed information on getting there and the climb itself.
