Grade Level: 4 - 6

Customer Reviews

I remember reading this series when I was in grade school, now my little guys are enjoying them. They are great for getting kids interested in history!

This entire series needs rediscovered by young Americans! Thoughtful, fascinating and well written account of Davy Crockett. Excellent way to explore history with your children! There are great vintage illustrations. This would be an easy 4th or 5th grade read. I read it as a bedtime story to my 6 year old son and he was mesmerized. There are exciting moments, but nothing too "scary"

Read this book with my kids! It was great for the whole family :)

"it gave you a lot of information. I liked that it was about a real person. I liked the stories Davy told"
Abigail, age 6

I read this to my 5 and 7 year-olds as our family reader. Took some time, but the kids were always eager to hear about more of Davy Crockett's adventures.

My 7 yr old son has read this several times and has enjoyed all of the books in this series.

This was a chapter book for my [...] grandson. We read a chapter each night and it kept him interested and curious about davey's life for weeks... It was a fun book and really sparked his imagination.

Item arrived exactly as described. I am very pleased with this purchase; item perfect for intended use. Really nice buy!
