Customer Reviews

Worst "book" i've ever read. It is litterally 2 pages and all it says is how to install a mod in minecraft. You can get 100% of this information on the Internet on a single page. This isn't even a book, it's a memo.

The info for this book says 4 pages. I see only 2 pages unless you count the disclaimer. You get the location of the mods folder in windows 7 and told to open a text file in notepad. THE END. That is the 'ultimate' guide.The best part is because this book is on Kindle unlimited and I read the entire book the author will get money for it.

I am not sure whether the problem is with the book or the kindle reader that I installed on my PC.

When I bought the book, I was looking for information on how to create a minecraft mod that wasn't on the wiki. The copy I purchased through only displayed a few pages within the book so I have returned the book for a refund. If this problem gets fixed, I am happy to purchase the book again and update my review.

this is so short that i got sample AND IT HAD FOUR PAGES the egzact amount i said for the max pages I wonder how it even got drafted? weird. can do much better then this Ebook.

this is a great beginner guide to modding without forge but, its very short and isn't the best guide available ebook or, tree.
