NASA (the National Aeronautics and Space Administration), established in 1958, is the United States agency of scientific research, technological development, and exploration in space. Its vision since its inception has been 'to reach for new heights and reveal the unknown so that what we do and learn will benefit all humankind.' Responsible not only for landing the first men on the moon in 1969, NASA's technological research has led to the development of the first weather and communications satellites, over 130 flights within 30 years of space shuttle missions, the landing of rovers on the Mars surface, as well as the establishment with 16 other nations of an International Space Station in 2000. Since the retirement of the space shuttle missions in 2011, NASA has continued its scientific research with several aims, most notably to land humans on Mars and to launch the Next Generation Air Transportation System.

I love this calendar! My friend bought this for me for Christmas and it's so beautiful and amazing that it brings joyful tears to my eyes! I love the images and the informative blurbs and also space, because space is breathtaking and awe-inspiring and I thoroughly appreciate being reminded of

how amazing it and my friend are every day!

I love love love this calendar - the images are crisp and the accompanying text is super engaging. A lovely stocking stuffer for this Christmas season.

Beautiful calendar, but the pages act like carbon paper, so if you write on it, it goes to the page behind it also. HORRIBLE.

I love this calender. ONLY complaint is if the 1st of the month is a Wednesday, it doesn't show a faded 29,30,31 or whatever. last month has no mention which is hard for my purpose, otherwise great. Would buy again

Meh. I got this as a christmas gift for my boyfriend and most of the months have pretty dull pictures. It just wasn't what I was expected but I didn't pay that much for it so it is fine.

What scenes!. Art and technology combine. Truly out of this world pictures.

beautiful monthly photos. my son loves it.

This calendar was a great addition to my home office wall!
