I love this package. It's easy to use and really works. I learned to read and write Arabic words and I'm on chapter 7 which is more than half way through the beginner version. Lesson 5 starts to get difficult because Grammar is introduced. I don't know if there is an easier way to introduce grammar if it just gets easier as I move forward and get used to it. Also I think more practice with grammar and creating sentences with answer keys would be beneficial. Some of the grammar is confusing too. I think that the grammar should stick with 1 level instead of giving different examples of endings that you may or may not hear. But mostly it's far better than Rosetta Stone in my opinion.

I have been using the Arabic living language course for a week. I am very impressed with its comprehensive yet straightforward approach to learning Arabic. I was taking a classroom course with an excellent professor but decided to drop out midway due to lack of progress. I am thrilled and encouraged with this course material.

although I am returning this item because I had order the wrong one, my mistake. BUT the package was great, quality is awesome and will order SSpanish version.

Very good especially the audio cds

The Living Languages series is just amazing! I've tried a lot of systems but if you want a solid base with a good handle on the grammar, you might want to try this one.

I need visuals to match my learning style. Audio alone does not do it for me. Content good; I methodology too abstract for me

If you can't afford Rosetta Stone this is a very good product to start learning Arabic with.

I listen to it in the car every morning! This has really motivated me to want to learn more languages.
