I am motivational youth speaker constantly looking for ways to refine my message and better serve our youth. This book has given me a treasure trove of new info to draw from. I touch on quite a few of the subjects already, but it's nice to have the science to back it up. I truly empathize with message. I went from a high school dropout to an NYU grad. My problem was never cognitive it was totally emotional. I only wish this was available when I was a kid, but I'm excited to get the word out now. A focus on IQ + EI = A New Generation of Students Ready for the Challenges of the 21st Century. Highly recommended to all of readersÃ Â Emotional Intelligence: 3 Manuscripts - Emotional Intelligence Definitive Guide, Mastery, Complete Step by Step Guide (Social Engineering, Leadership, ... In Emotional Intelligence, Ryan James describes the physiological processes that drive and are driven by emotion and their purpose, the ability of emotions to hijack rational thought and the short- and long-term physiological and psychological effects, and the personal and social benefits of teaching and learning how to manage the emotions. This bunch of three books have truly helped me understand life in all its conflict and beauty.
