Wingshooter's Guide To North Dakota: Upland Birds & Waterfowl (Wingshooter's Guides)

Synopsis

This guidebook supplies all the information you need to plan a hunting expedition. Each section of the state has plenty of maps, graphs, tips, and techniques; which species are present, populations, where to hunt, as well as when and how to get there. Species covered are pheasants, prairie chickens, sharp-tailed grouse, Hungarian partridge, mourning doves, turkeys, and an expanded section on waterfowl. --This text refers to an alternate Paperback edition.

Book Information

Series: Wingshooter's Guides

Customer Reviews

I felt after reading Mr. Johnson's Montana and Arizona guides I could almost hunt blindfolded, heck I think his Montana book was what brought me here for the last 19 years. North Dakota was not as helpful and by no fault of his there is so much recent change that restaurant and accommodations are already quite dated. It felt more like a quick scan of the state and not the depth I came to rely on.

Dated information, but if you are looking for a solid primer on general information and the broad strokes you need to plan a hunt this is great.

This is a book that provides a decent amount of information, presented in a very general way, regarding the hunting in North Dakota. It is a helpful book in many respects. I had a prior edition, and bought this one in hopes that there would be updates, more specifics, etc., and found it to be

99.9% of the last edition including pictures.

This book was a huge disappointment. Extremely overpriced---much of the book consists of obsolete lists of restaurants, veterinarians, campgrounds, etc. Lots of generic, re-hashed information on things like dogs and guns and decoy layouts, with very little in the way of helping nonresidents understand the unique habits and habitats of North Dakota game birds.
