The Making Of A Navy SEAL: My Story Of Surviving The Toughest Challenge And Training The Best

Synopsis

BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS—HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Making of a Navy SEAL* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Explosive, revealing, and intelligent, *The Making of a Navy SEAL* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world.

My son is an officer in the SEALs and this book by Brandon Webb is excellent. Webb's other books are also worth reading for sure. I think many of our citizens in the US have no idea what SOF guys really do and what amazing men they are. This book would help the reader to understand the commitment and sacrifice they, their families, and brothers in arms go to in protecting our freedom. It is not a once in a while thing, it is virtually every day and it doesn't end with a deployment.

Beautifully written prose with real emotion and feeling that clearly comes through...not another guy looking to be a hero or extol his own virtues but to tell it like it is and hopefully improve some people's lives and mentalities while doing so

Excellent read. I always knew Navy SEALs must have to endure a lot to get through their training, but I had no idea! I like that what the reader learns from Webb is applicable to any sphere of life that requires a commitment to excellence. I bought this for myself, but after reading it in one sitting I plan to pass it on to my 14-year-old nephew because it has so many valuable lessons. To all the reviewers who are rating this book down because of its similarity to *The Red Circle*, please note that the description clearly says that *The Making of a Navy SEAL* is essentially a young readers edition of that book!

I've read other books by the author, each was informative and written from experience, not from a training manual. His story! I've read other books by this author, all are written from experience and not from a training manual. Never give up is exemplified in this book as with his other books. I would recommend this book to anyone wanting to improve themselves.

I read the "adult" version of this book and bought this one for my 10 year old son...he loved it...thanks Brandon Webb!

I thought this book was phenomenal, and the way that he talked about his life, and all the

challenges he went through is amazing. I mean his life was absolutely fascinating. Not to mention all the action pack things he went through as a SEAL. I'd recommend this book to anyone who wants to be or is interested in being a SEAL. But if your not interested, then I still would recommend this book to you, because it is still a phenomenal book, that everyone should read.

My 13 year old son enjoyed reading this book as part of his school's summer reading program as a rising 8th grader.

Amazing book that puts you behind the scope! Thanks so much BW! WOULD 100% RECOMMEND TO A FRIEND!
