The above rating only applies to newbies to e-bay. To those (of which I am) it like the bible with simple instructions and outstanding explanations. That said, if you are familiar with e-bay it really is a rehash of your knowledge and experiences and nothing out of the ordinary.

More and more, I meet people who are selling things on eBay. Here's a book that spells out how-to and reduces it to a manageable level. Here are the contents of the book:

Part I: An Introduction to eBay for Buyers and Sellers

Chapter 1 - Getting Started

Chapter 2 - Research: Don't Buy or Sell Without It

Part II: Buying Antiques and Collectibles on eBay

Chapter 3 - Finding Antiques and Collectibles on eBay

Chapter 4 - Buyer Be Aware: What to Know Before You Bid

Chapter 5 - Bidding Strategies

Chapter 6 - I Won an Auction! Now What?

Chapter 7 - Working Through the Bad Buy

Part III: Selling Antiques and Collectibles on eBay

Chapter 8 - Setting Up Shop on eBay: Getting Started Selling

Chapter 9 - Titles, Descriptions, Photos and More

Chapter 10 - Setting Your Starting Price, Understanding eBay's Fees, and Creating a Basic Listing

Chapter 11 - Managing and Completing the Sale

Chapter 12 - Standing Out in a Competitive Market

Appendix - More Helpful Resources

Whether you want to buy or to sell your antiques and collectibles on ebay, this is the book for you! Written in an easy-to-follow, one-step-at-a-time manner, Pam shares her expertise and insights for

success. She includes many tips and suggestions and you'll feel confident and competent to enter this exciting marketplace!

Good all around.

Good book if you just start to use ebay, but it is not offer much to e-bay users that are already familiar with standard features in e-bay. For example if you like to know, how to use web site to add pictures to your listing or like to know, how to write HTML to make your listing more organized, this book would not help. however, I will keep this book in my library as a reference for a few tips that I found usefull.

I have nearly 1,000 positive feedbacks on my eBay account, but I am amazed at how much I have learned from this book. There is so much information for every level of buyer and seller, I really don't see how you can expect to succeed without THIS wonderful book. In addition to being interesting reading, Ms. Wiggins says things that few other people say out loud. Interested to know what I am referring to? Then buy this book and find out.

Just when you think you know Ebay out comes a great book that teaches you even more. A great learning book for the beginner and for the advanced auction seller. Don't miss this book. Great writer that writes so everyone can understand.
