Cost Accounting: A Useful Summary

**Cost
Accounting:
A Useful
Summary**
Trevor Clinger

Synopsis

Next time you walk into work and say hello to everyone in the morning, you must not forget to say hello to your accountant and thank him or her for fulfilling their occupation to the fullest. For this accounting paper, I used a mechanical contracting business for examples on how they do basic cost accounting, but this paper can be applied to any business. This final paper was written for a 300 level class for an undergraduate college class. This paper serves as a great reference for paper guidance and research. I received an A on this paper, and put forth a lot of time and effort to write it. I have an Associates of Business Management Technology, and hold the rank of Senior in my attempts for a Bachelor's of Business Administration.
