Customer Reviews

"A great way to prepare children for the pleasure of a museum visit or a concert." --This text refers to an out of print or unavailable edition of this title.

Mike Venezia is the author of several nonfiction books for children.

As a teacher, I love this series! My goal is to teach my 3rd graders about the famous artists and composers. This series makes it easy, fun, and interesting!

I was surprised at first by how small this book was (both in size and number of pages), but it's funny and actually contains quite a bit of information for a young child. My 5 year old likes it and retained a good many little biographical information after just the first reading. Great read for elementary level

students.

god for beginners

The perfect kids books on Back. It kept their attention and gave details I didn't even know about.

Really great book. They have fun little jokes to help the kids understand about the composer. Great illustrations.

This is the perfect addition to our homeschool famous composer music curriculum. This series of books is such a great resource to have.

This book, as well as the others in this series, is a great way to introduce famous composers to children and adults (I learned interesting facts and history that I hadn't learned before, as well.)

Wonderful art work and interesting story.
