Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. I have been completely misled by this and I'm really angry. WHY are all the reviews for a piano book? This is NOT a piano book! I can see it says "Harmonica" on the top, and not understanding music, I assumed Harmonica was another word for a piano. But there is no sheet music at all - just numbers for kids to follow to learn to play a MOUTH ORGAN. Buyer beware - despite all the reviews

this is NOT for piano! Will be returning.UPDATE:OK - there is definitely something weird going on. I have just looked up the CORRECT book - "Disney Collection Songbook Easy piano series" and whadd`ya know: this review also appears under THAT book! It seems the harmonica book and the piano book reviews are all linked - they have exactly the same number of reviews by the same people with the same wording!So again - anyone buying this - make sure you are getting the piano book and not the harmonica book. Harmonica is not a piano! (Honestly! I didn`t actually know that! That`s how unmusical I am!). I don`t know if it`s a system glitch or if the seller has set this up this way but it is very confusing and I`m sure I won`t be the only one buying the wrong book until this is sorted.

I was mislead, I thought this had the piano music too.

I did not even get a piano book...
