# String Builder, Bk 3: Violin (Belwin Course For Strings)

## Synopsis

The Belwin String Builder is a string class method in which the violin, viola, cello, and bass play together throughout. Each book, however, is a complete unit and may be used separately for class or individual instruction. The material in this book is realistically graded so that only a minimum of explanatory material is required. Each melody is interesting and will provide the basis for a fine left hand technic and bow arm. Available in three levels for violin, viola, cello, bass, piano accompaniment, and teacher's manual.

## Customer Reviews

This volume systematically introduces the student to various strategies for shifting from the first to the third position (and back again). It is easy to follow and has one or more examples of pieces in the literature that use each strategy.

Thank you

I always like this method to teach my violin students

A+++++++100%

I am really enjoy each and every one of these books. I had them when I was in School, My Son learned from them when He was in School. Start with book 1 and work your way up. Go Slow.

Excellent for students.

Great series

Violin lesson book.
