Understanding Trump

Synopsis

The presidency of Donald Trump marks a profound change in the trajectory of American government, politics, and culture. Like his administration, the movement that put him in office represents a phenomenon that is worth studying. p.p1 p.p2 p.p3 p.p4 Donald Trump is unlike any president we've ever had. He is the only person ever elected to be commander in chief who has not first held public office or served as a general in the military. His principles grow out of five decades of business and celebrity success-not politics-so he behaves differently than do traditional politicians. In **UNDERSTANDING TRUMP**, Newt Gingrich shares what he learned from more than two years helping Trump and his team throughout the campaign, the election, and during the first months of the presidency. Mr. Gingrich provides unique insight into how the new president's past experiences have shaped his life and style of governing. This book also includes Mr. Gingrich's thorough analysis of how President Trump thinks and makes decisions, as well as the president's philosophy, doctrine, and political agenda going forward. Further, these pages hold a detailed discussion of Trump-style solutions for national security, education, health care, economic growth, government reform, and other important topics. Mr. Gingrich also identifies the forces in the Washington establishment, media, and bureaucracy that will oppose the president at every turn. Finally, **UNDERSTANDING TRUMP** explains the president's actions so far and lays out a vision for what Americans can do to help make President Trump's agenda a success. The president owes his position to the people who believed in him as a candidate, not to the elites in government and media who have expressed contempt for him since he began his campaign to become president. The very essence of Trump's mission is a willingness to enact policies and set goals that send our country in a bold new direction - one that may be "unreasonable" to Washington but is sensible to millions of Americans outside the Beltway. Only with the country's help will President Trump be able to overcome the entrenched interests in Washington and fulfill his promise to make America great again for all Americans.

"Inspiring and informative -- I highly recommend it!" — Sean Hannity

NEWT GINGRICH is a former Speaker of the House and 2012 presidential candidate. He is a Fox News contributor and author of 34 books, including 14 New York Times bestsellers. Newt and his wife, Callista, host and produce documentary films. Recent films include *The First American* and *Nine Days That Changed the World*.

I've always admired Newt's ability to articulate what others struggle to explain. For whatever reason, he seems to make politics more accessible, easier to understand and a little bit more fun. Maybe it's his background as a historian that gives him the ability to correlate modern events with long-term trends. Maybe it's the context he injects into today's polarized debates. Or maybe he's just a little bit smarter than most people. In any case, this book goes a long way toward articulating the ideological trends that drove Trump to a historic victory in the presidential election, giving context to the man himself, and looking forward to give us a glimpse of what we can expect in the future. Nicely done.

OK, so it seems I posted my review on the wrong book- this is by far the BEST book on both the 2016 election and Donald Trump I've seen yet- and I've read over 2 dozen. Gingrich writes not only as a true Trump "insider", but his own experience as Speaker of the House gives him an unparalleled understanding of the "swamp" (he's the one that named it), the creatures in it, and what it will take to overcome them.

As usual Gingrich gives the reader plenty to think about. He is a smart man and he writes well, however I was a little disappointed in this book. He includes parts of speeches given by numerous people as well as Trump speeches. He also includes numerous excerpts from written material. A book can be written fast with this kind of material. Perhaps this is unfair? Gingrich knows Trump

well, that is obvious. Understanding the man is a whole different story. I feel that we, all America have misjudged Trump. The thing that speaks to me the loudest is the Trump children. They know him and they speak from the heart. He is smart, he is sincere, and he DOES want to make America Great Again. All of this I just wrote is exactly what the book is saying.

As you read this book you can almost hear Newt talking to you. It is well written in his no nonsense way. I enjoyed the history comparisons to Lincoln. It is packed with insight into the corruption and explains the problems with the country and the government and what President Trump faces. Thoroughly enjoyed this book.

Nice read. Newt tells it like it is no bull!

A great pair. He should listen to Newt!

Very interesting reading.

Fine Book about a Great Man!
