Wow, we love these books. The stories are very simple and short. We read them to our 4 year old as bedtime stories. There is one story that contains the line, "my best friend is trying to kill me." It's supposed to be funny, but I'd rather not have references to killing in a book for kids. Otherwise, we've been cycling through these 3 books at bedtime for 2 months and my daughter is not losing interest yet. Mommy and daddy don't mind reading them either, which is not always the case.

Oh My Gosh! My kids and I LOVED these books! They are so funny! I bought a set for my friends 7 year old daughter for her birthday. She's not familiar with Frog and Toad, so someone had to introduce her!

My daughter desperately wanted to read chapter books like her older cousins and this set made the perfect gift to help her do so. The vocabulary is appropriate for a 4, 5, or 6 year old and the story plots are simple and straight forward. Frog and Toad are friends who help each other throughout the books, which subtly sends the right messages about interpersonal relationships. Many parents will probably remember these books from when they were kids, which makes reading at bedtime even more fun. Maybe I'm a bit nostalgic, but I find it soothing to wind down with these stories rather than yelling at swiper or watching psychedelic alien dancers jump around on TV.

We have a 5 year old son who really enjoys these books. They are short enough to keep his interest, and at their core each is about friendship. So far we have been reading these to him, but I imagine these will be some of the first books he reads on his own. Highly recommended.

My son (7) is in first grade and is a typical action seeking, fun loving, smart boy with a funny bone. His reading has really progressed recently and he understands what he reads, so it needs to be of interest and/or funny. Finding books for him is not easy. A lot are geared towards girls or are boring or don't really have a lot of words, like a real story. These books are perfect. They are long and funny and not girly. He actually read all three within 2 days. He'd rather read these than watch TV. His deal is that he has to read before he can watch TV. He could have just read for 15 minutes, but he wanted to keep going and read the whole book, about 30-45 minutes. I had to make him slow down. In fact I had to just go to a book store and get the 4th Frog and Toad book not included in the

set. I wished they made more like this or stories about space/aliens, etc... stuff that little boys would like, stuff they pretend about when they just play using their imagination. The level 3 books have some good stories but he is not quite there yet. So now my search is on for more. This story line is great, highly recommended, even for girls.

Adorable, well-written, funny, and perfect for kids learning to read. (I'm an adult, and laughed right along with the kids.)

I've been a frog and toad fan since I was a kid and immediately wanted to introduce the series to my son. Great stories and illustrations for any age. Love the series!

Great price and even greater books. The full range of the emotions of the human heart comes through in a clear, friendly voice in every Frog and Toad adventure. Easy to read for Mom and Dad, easier for children to listen, and then, when the time is right, learn to read the stories themselves, which, many of them being impossible to forget, they will do.
