The Guide To Home Decorating Indian Style

Synopsis

Few of us are born with the ability to know exactly what we need in our homes, much less how we want it to look. In "The Guide to Home Decorating Indian Style", Priscilla Kohutek gives us guidelines in a practical, down-to-earth manner, which everyone can understand and follow. Her book is full of cost effective advice on everything from how to plan a smart kitchen layout to squeezing in some space for an extra bathroom to knock-out window treatments that won't break the bank. The book emphasises the unique requirements of the Indian home and its climate.

The Guide to Home Decorating Indian Style by Priscilla Kohutek Few of us are born with the ability to know exactly what we want and need in our homes — much less how we want it to look. We neither have money to burn on expensive mistakes and unwise choices nor are we prepared to live with them. We, therefore, must have guidelines to help us along the way to get things right. In The Guide to Home Decorating Indian Style, Priscilla Kohutek has given us these guidelines in a practical, down-to-earth way that everybody can understand and follow. Not only does she tell you how to quickly and easily spruce up the place with "instant" make overs, she also tells you how to do major renovations and takes you from the planning stage all the way to the finished project. Her book is chock-full of sensational, cost effective advice about how to plan a smart kitchen layout, squeeze out some space for an extra bathroom, make the kids happy in a shared bedroom situation, cheer up a tired-looking living room, create knock-out window treatments that won't break the bank, plus much, much more. Whether you are a single person doing up your room at home, a newlywed setting up your house for the first time, or a married couple with a growing family, you need this wonderful guide book to make decorating simple and fun.

If you are a 'westerner' seeking to decorate your home - or even a room - in Indian furniture and furnishings, this is NOT the book for you. The book is about home decorating in contemporary India, and the examples are as likely to be Chinese or Indonesian as they are Indian. Published at the turn of the century the book presumably targeted India's burgeoning middle class. The book is presented in a "question and answer" style; and covers a lot of territory in decorating basics.

Are you stumped about what to do with various rooms in your home? Does trying to get the right mix of furniture styles leave you dizzy? In a quandary about what window treatment you need for those huge domed windows? Priscilla Kohutek has written a delightfully readable guide for solving decorating problems. Although the emphasis is on Indian style the many ideas given can work with almost any style one chooses. The book is divided into practical sections. The question and answer format works very well. The answers to a myriad of decorating problems are easy to find. The photography and illustrations are first rate. Many of the decorating ideas that use Indian cloth, accent pieces and art are available here in the U.S. The superb artwork in the book enables you to easily visualize how the same idea might work for you. It will also help you use items from other parts of world in the same manner helping you create your own unique setting. This is a reference book you're going to want to keep handy.

Priscilla Kohutek's The Guide to Home decorating Indian Style is one of the most practical and readable home decorating books we have had the pleasure of owning. The user-friendly layout makes it an excellent how-to book for everything from simple and inexpensive makeovers to full-scale redos. Priscilla's helpful hints and solutions to real-life problems are supported by beautiful photographs, renderings and computer drawings. Her advice for making the most out of small spaces helped us make our kitchen a better place to work in. We also like her ideas for arranging the knickknacks we've collected and didn't know what to do with. This is a great book for people like us who want to make their home look good but can't afford to spend a lot of money on it.

Beautifully presented, the book is a visual inspiration to all who review it. The author's straight forward writing presents practical answers to basic decorating questions applicable to all styles, not just Indian style. Maritha Burmeister

I found this book after seeing Priscilla on TV. The book does an excellent job of conveying her no-nonsense approach to decorating. She has a fine eye and this book will help you to develop that same eye for your own decorating projects!
